

Certificate

0ww14379

This certificate is proof that

KMO Consult BV

has offset 69.88 tons of CO₂, caused in 2009.

Offsetting is realised with CO₂ reduction projects of Climate Neutral Group.
These projects help counter global warming by reducing
CO₂ in our atmosphere.

As an indication: to offset these emissions, on average a windturbine has to be
operational for 175 hours, or
3494 trees have to grow for one year.

René Toet
